Dear Jill,

Could you specifically point out to the paper you had in mind? Not sure which one you are referring to.

Thanks,

Nina

Hi Nina and Dick,

We are going to be going out for public comment soon, and were wondering if it was ok to cite Nina's 2016 paper, which had been submitted, when last we spoke. If so, can you please send me the proper citation? If it isn't ok to cite, we can just refer to the data set that is publically available. We wouldn't release the manuscript, of course, just cite it. Thanks so much.
